

Luminescence dating and its significance in Geosciences: reconstructing and quantifying earth surface processes

Gastvortrag im Wissenschaftlichen Kolloquium
der AG Prof. Schrott
am 18. Mai 2017, 16 Uhr c.t., Hörsaal IV,
Geozentrum (2.OG), Meckenheimer Allee 176

Prof. Dr. Markus Fuchs
Institut für Geographie
Justus-Liebig-Universität Gießen

Luminescence dating has revolutionized research in geosciences, especially in the field of geomorphology, Quaternary sciences and geoarchaeological research and due to new technical and methodological developments, luminescence dating will continue to play a major role in answering questions related to earth system sciences.
